## Purely Business!

The columns of a newspaper represent a cash value. No publisher can afford to give advertising "quotations" free any more than a merchant can take over his customer's free goods or shoes. A newspaper is a legitimate business concern. Its columns are its stock in trade, and advertisements should be paid for, no matter in what part of the paper they appear.

## MAN KILLED THE DOG.

Captain Mahan is just the man to prove that Eber's right, iron or oak, ships are "no joke," but "fish and blood" must fight. Your "hundred tonner" is a stunner. Yet fight will still be won. If won they are, by stout Jack Tar, "The Man behind the gun!"

Fair breezes wait your C. S. craft, (Cruiser Chicago) still!

Valor and wit will keep us knit in brotherly good!

Mahan let's liquor! Blood is thick! Then water, so, my son, A bumper brim all round to him—"The Man behind the gun!"

## Electric Park Monday Night.

The Street Railway Company has for next week Mr. C. E. Phillips of St. Louis, who has gained fame as a lyric entertainer. Mr. Phillips is an expert performer on the mandolin, he using a mandolin valued at \$250. He is a palm whistler, musical eccentric and mimic and introduces many novelties. Miss Wild of College Hill, O., is the very delightful guest of the Misses Waller of West Second street. She has been the recipient of much attention while among us, but last night's pleasure was a crown of honor. Miss Katherine Ross of West Third street gave a most beautiful function. It was a wheel of pleasure, so endless the amusements and so well rounded in every particular. The moment the guests entered the spacious and lovely old room home the light of hospitality fell upon them as a mantle to bring the best of joys. Flowers were banded and the rich odors exhaled were not comparable to the exquisite beauty, the delicate loveliness, the chic and animation of the sweet young hostess and her honored guest. At a late hour refreshments were served, and the evening continued abounding in social pleasures until the approach of cock crowing warned the lingering guests of the hour for departure. Even then some of the men wanted to kill the crow.

**The Big Whale Shore.**  
We think if more of our citizens read the amount of knowledge they can gain about the whale, how they are constructed and how peculiarly they take their food and other habits differing from land animals by paying the monster a visit, they would not let this valuable information slip from this city without viewing it. It may leave our city on Monday and those that have not seen the whale will do well to go today or evening.

**Electric Park.**  
Tonight closes the vaudeville season at this most popular place. The large auditorium was crowded to its utmost last night. In fact, standing room was at a premium, and it is safe to say a more delirious audience never came away from a similar amusement place. It is to be regretted that the vaudeville season is to come to a close tonight for there have been many enjoyable evenings for the amusement lovers of this city. Go out tonight. Ten cents pays your admission and car fare.

**THE YOUNG MEN.**  
What the Mayville Y. M. C. A. is Doing For Their Betterment.

At the Men's Rally tomorrow afternoon at 4 o'clock Mr. J. B. Wood is the leader of the meeting. Mr. C. E. Phipps, a talented young man from Louisville, will play a mandolin solo. Lemonade will be served during the service. All men invited to attend.

**HOT STUFF.**  
Postmaster General After Postmasters Who Are Chairmen of Committees.

Politics and Postmasters are by no means synonymous terms, as will be seen from this letter:

OFFICE OF POSTMASTER GENERAL, Washington, D. C., Aug. 8, 1898.

Hon. George W. Jolly, Owensboro, Ky.—My Dear Sir: The President of the Civil Service Commission has handed to me a copy of your letter of August 5d, in reference to certain employees in the Government service taking an active part in politics. The attention of the Department has already been called to the fact that the Postmaster at Owensboro was Chairman of the Republican County Committee, and on August 5d a letter was addressed to him requesting him to resign as Chairman.

If you will kindly advise me if any Postmaster who is ostensibly active in politics, I will cheerfully take the matter up.

I inclose with this a copy of an order issued by the President under date of July 14th, 1898, which has been neither revoked nor modified. Very respectfully,  
C. E. HENRY SMITH,  
Postmaster General.

About one month ago my child, which is fifteen months old, had an attack of diarrhoea accompanied by vomiting. I gave it such remedies as are usually given in such cases, but as nothing gave relief, we sent for a physician and it was under his care for a week. At this time the child had been sick for about ten days and was having about twenty five operations of the bowels every twelve hours, and we were convinced that unless I soon obtained relief it would not live. Chamberlain's Colic, Cholera and Diarrhoea Remedy was recommended, and I decided to try it. I soon noticed a change for the better; by its continued use a complete cure was brought about, and it is now perfectly healthy.—C. L. BOGGS, Stumpville, Gilmer Co., W. Va. For sale by J. Jas. Wood & Son, Druggists.

DeWitt's Witch Hazel Salve has the largest sale of any Salve in the world. This fact and its merit has led dishonest people to attempt to counterfeit it. Look out when you call for DeWitt's Witch Hazel Salve the great pile cure. Henry W. Ray, adjoining Postoffice.

**DOUBLE MISFORTUNE.**  
Rev. W. M. Spates, Looking After His Chickens, Breaks His Leg.

Misfortunes never come singly.

The Rev. W. M. Spates of the M. E. Church, South, broke his leg at Flemingsburg yesterday morning.

The annual Conference of his Church will be held at Flemingsburg next month, and good Methodist that he is, Bro. Spates is raising a large crop of chickens to meet the demand which is sure to follow.

Next to his own family, his earnest solicitude has gone out for the well-being of the "yaller-leggers," and yesterday morning while looking after them he slipped on a wet board with the above painful result.

It is hoped, however, that he may recover sufficiently by the time Conference meets to enable him to share with his brethren in the enjoyment of the usual try.

**MURDER TRIAL.**  
Harve Workman Being Tried at Mount Olivet For Murder.

In the Robertson Circuit Court the case of Harve Workman has been on trial this week.

The case was taken from Bracken county.

The defendant is charged with killing his nephew, William Workman, at Santa Fe in January, 1896.

The defense has offered a plea of insanity.

The trial is attracting much interest, and large crowds hear the evidence.

The Commander-in-Chief of the German Navy says that Germany will keep five warships in American waters during the approaching autumn and winter. Well, and you'd better look a leetle on; if you don't behave yourself you'll get notice to leave. When you do you'd better leave p. d. q.

The London Times, in an editorial on the Manila campaign, says:

"As the signing of the protocol could have been known when the Germans arranged to remove Governor General Anagnost, the transaction comes remarkably near a deliberate breach of neutrality. But for the German action General Anagnost would have been a most important prisoner of war. The whole story decidedly wants explanation."

THAT one may judge of the perfect fairness of the Goshel Election Law Commissioners, it is only necessary to say that in eleven counties of the state the Democrats have all the Commissioners, and in thirteen counties the Democrats and Populists have them all. The Republicans, who are now in power in the state, are entirely ignored in these twenty-four counties.

ANOTHER French gentleman has been heard from. The Revue des Deux Mondes says:

"If America should decide to hold the Philippines all Continental Europe will back Spain. The fact that England is supporting America will intensify continental opposition."

This wild-eyed individual must be suffering from "Frog in the throat." Ten cents will cure him, and ten shots from a Yankee gun will cure any case of "big head" in Continental Europe.

IX these days of re-United States there is much interest manifest in the Confederacy. The only survivor of Jefferson Davis's Cabinet is John H. Reagan, who is now in Chicago and is almost 80 years of age. He was Postmaster General and Secretary of the Treasury. During the reconstruction period he was adviser of President Johnson and Secretary Seward. He was born in Tennessee, but went to Texas when a young man. Since the Civil War he has been elected Representative in Congress and United States Senator. He is a Democrat, and has come out boldly for retention of the Philippines by the United States.

Volcano of Lopez, in the New Hebrides Islands, After Years of Silence, becomes Active Again.

SAN FRANCISCO, Cal., Aug. 29.—The British steamer Milda reported on its recent arrival in Spinye, N. S. W., that the inhabitants on the island of Ambry, New Hebrides, were panic-stricken last month by an eruption of the volcano of Lopez, which shook the islands to their foundations, and many thought that they would sink into the sea. The seismic disturbance was preceded by a hurricane. Houses were blown down and nearly all the lighters on the beach wrecked by high surf. Deaths were caused by salt and acted volcanic sand and ash-fall, and fearful noises came from Lopez. At the end of about ten hours ashes covered the island to the depth of several inches. Lopez had been inactive for hundreds of years.

THE FIGHTERS' GUIDE.  
A Big Wheat Crop For 1899.

That's our prediction for Mason, Bracken and Robertson counties. We make no pretensions in the way of fortune telling; neither are we a prophet. We are simply gifted with a goodly amount of "horse sense." We know that there will be a good wheat crop next year, because the bulk of the wheat sown this fall will be sown with Empire Disc Drills, and they make no mistake. Empire Drills are positive and absolute. They do exactly what you tell them to do. The Empire Disc Drill is the only positive feed drill made. It will feed the same quantity of wheat, rye, oats or barley with the same gear. Size of the grain cuts no figure with the Empire. You do not have to sow four or five acres before you know what you are doing with other drills. The Empire has telescoping side conductors which never break or choke up as do the old-fashioned rubber conductors. The Empire drag bars are fastened to the top of the boot, five inches higher than on other drills and trash will not choke and stop the Empire.

EMPIRE WHEAT DRILL

will drill corn successfully. Remember, the Empire is a positive feed drill, and the only one on the market. The grain is gently lifted into the conductors by a round, saucer-shaped part which is made to rotate by a square shaft. Only so much grain can be lifted and fed as this part will hold, and in order to sow a large or small quantity of grain per acre you simply put a large or small wheel on this shaft, which makes the round, saucer-shaped lift revolve faster or slower. Each cog wheel is numbered and guaranteed to sow an exact quantity of any grain per acre—wheat, rye, oats, barley. The Empire has tapering axles like a thimble-steel wagon, and a peculiar wheel, a wheel that we will guarantee will not rub the boxes in five years as on other drills, no, not in twenty-five years. Buy the best. Buy the Empire and take advantage of 48 years experience. The factory now offers you the result of a lifetime's study and invention, viz: The Empire Disc Drill. Ask your grandfather about it. Ask any old citizen if he ever heard of an Empire Drill. I can show you an Empire Drill that is 31 years old and still running. The Empire for 48 years has had a national reputation—known and used the world over except Mason county. The Empire is not a cheap drill. It costs the agent a little more than other drills. Perhaps that is why your implement dealers have never sold the Empire Drill here. Empire Drills are being exhibited and sold in Mason county now. I have shown this drill to at least 80 farmers in the last two weeks and every one is enthusiastic in its praise. Call, examine this wonderful machine and convince yourself. It is a pleasure for us to exhibit it. Call and see us.

## AT FORT MONROE.

One of the Largest Fleets of War Ships Ever Assembled in an American Port.

WILL BE GATHERED TOGETHER SOON.

Altogether About 70 Vessels Will Assemble at That Harbor, 57 Now Being Under Orders.

The Desire to Get Our Ships Afloat From Ports of Possible Fever Infection—They Will Also Be Put in Thorough Repair.

WASHINGTON, Aug. 20.—One of the largest fleets of war ships ever assembled in an American port will be brought together within the next few days at Fort Monroe. Already 37 war ships are under orders to assemble there, and the orders still to be issued will raise the total to the neighborhood of 70. Naval officials say it is difficult to realize the extent of such a marine aggregation in one harbor.

The orders began issuing last Monday when five ships were ordered to Fort Monroe. On the 17th another ship was added. On the 18th eight more were sent, and on the 19th 17 ships were added. Friday's orders include 18 more ships. Before the orders began issuing there were eight war ships at Fort Monroe, so that the total up to Friday is 57.

The movement of these ships northward is due to the close of hostilities, and more particularly to the desire to get the ships away from points of possible fever infection. They will now be put in thorough repair, and the naval millimeter to sailors of the regular navy.

The navy department has not yet determined what ships will go to Havana, San Juan and other points of Cuba and Porto Rico. There is felt to be no hurry about this until the authority of the United States is fully established throughout the islands. In the meantime the matter of policing the shore points is being considered and in due time a number of the light draught auxiliary craft and some of the single turreted monitors will be used for this purpose.

As many naval vessels will be centered about the West Indies from this time forward, the navy department will send the new floating dock, recently bought in New York, down the coast to Pensacola, Fla., where it will be kept for docking the war ships. At that point also there are good naval workshops to be used in conjunction with the floating dock. The dock is now being coppered, and will be towed to Pensacola as soon as the September gales are over.

## LESS EXPENSES.

Retrenchment in Nearly All Branches of the Army Follows Cessation of Hostilities.

MANY WORKMEN WILL BE DISCHARGED.

Notably in Ordnance, Quartermasters and Engineer Bureaus, Where Supplies Are Not Needed.

Rock Island Arsenal Will Be Affected More Than Others—Many of the Transport Chartered for Use by the Quartermasters Released.

WASHINGTON, Aug. 20.—Retrenchment in nearly all branches of the army is following close upon the cessation of hostilities. Notably is this the case in the ordnance, quartermaster's and engineer bureaus, where the need for the supplies required and the men employed to furnish them is of no longer extent. In the ordnance bureau the force at the various arsenals is to be reduced in all cases where this can be accomplished without detriment to the service. The Rock Island arsenal probably will be affected more than any other. There before the war about 240 men were employed. When the peace protocol was signed there were approximately 4,000 men engaged and orders have been issued which will reduce this number by two-thirds. Another reduction in the large number of contracts were made with ordnance firms for supplying material. In many cases these were made conditional so that they could be terminated within a few days after the cessation of hostilities, and the department has in every case availed itself of this privilege. At the end of the civil war the government had outstanding contracts for the construction of a number of big seacoast projectiles, but these were regarded unnecessary when hostilities came to an end, amicable arrangements were made with the companies by which their contracts were cancelled.

At the present time contracts are in existence also for furnishing sea coast projectiles, but as the government is desirous of obtaining all contracted for, there will be no necessity to resort to such action as was taken at the close of the civil war.

The quartermaster's department is desirous of rapidly as possible with such of the transports that were chartered for and for which there is now no necessity. Considerable labor is involved in this work as a board of survey has to be appointed to determine the various incidental questions that arise pending the return of the vessels to their owners.

In the engineer's department the services of electricians, mechanics and laborers engaged in the work of harbor and river mine defense, and of boatmen employed to patrol the adjacent waters for the purpose of preventing their danger also are being discharged as rapidly as is consistent with the good of the service.

Gen. Wade and Butler Relieved of Present Duties. WASHINGTON, Aug. 20.—Maj. Gen. Wade and Maj. Gen. London Spectator's Prediction. ## SWEEPED TO DEATH.

A Cloudburst Causes Sawmill Run, Near Pittsburgh, Pa., to Overflow Its Banks.

MIGHTY RESH OF WATERS CAME DOWN.

Six Children on a Porch Which Overhung the Run Were Carried Away and Drowned.

Others on the Porch Were Carried Out Into the Ohio River, But Were Saved—Heroic Efforts of a Mother to Save Her Children.

PITTSBURGH, Pa., Aug. 20.—A cloudburst up Sawmill run Friday morning caused a tidal wave in that stream and endangered the lives of a dozen persons. Five children are missing and are supposed to have been drowned. They are Irene Loftus, Regis Loftus, Margaret Shaughnessy and Nellie Snails.

The water in the run began to rise Friday morning and at 9 o'clock a great volume of water came down. The missing children together with some other persons were standing on a porch of the brick tenement house on Violet alley, in the rear of Main street, near West Carson. This porch overhung the run. When the great wave, 20 feet high, came down, the porch was carried away and the people went with it.

Mrs. John Loftus, mother of the two children first named, and two men were the adults in danger. The woman made a heroic effort to save her children, but to no purpose. She kept the mouth of the run, the dredge boat Pittsburgh was moored, and when the men in it saw the wreckage coming down the stream and the people struggling for life, they stopped all work for a moment to rescue the men and the woman were carried out into the Ohio river, but were saved by the sand dikes.

The woman had excited the admiring curiosity of the crowd by her efforts. She was almost overwhelmed a number of times, but each time fought off the debris and came to the surface.

The great body of water did much damage. A sand bar 15 feet high at the foot of the run was washed away. Parties of men are searching for the bodies of the children.

There was a heavy and continuous downpour of rain through western Pennsylvania from midnight until 3 o'clock Friday morning, and considerable damage was done by the rain and the overflowing of small streams, but as far as known there was no other casualties.

The number of drowned was six, the names of some of them being added to the list.

Mrs. Loftus the mother of the two Loftus children, is dying from the effects of the shock and exposure. The body of one of the Loftus was recovered Friday evening.

McKinley Can Not Attend. WASHINGTON, Aug. 20.—President McKinley has sent his regrets to the Cincinnati committee which invited him to attend the G. A. R. encampment. Only unusual considerations have induced him to change his mind. He declined to go to the naval demonstration in New York. Still, he will be less pressed with great duties, three weeks from now, and as he intends to take a brief rest, he might be induced to go to Ohio for one day.

Protest Against Low Wages. BALTIMORE, Aug. 20.—Local garment workers are brought to over the low prices paid by contractors for army uniforms. A meeting of more than one thousand members was held Thursday night to protest against the low wages paid. Contractors only pay 55 cents for the manufacture of the overcoat and cape. Workers claim that they should receive \$2 per day, but only make 85 cents. They refuse to make coats at the present price.

A dispatch from Rome asserts despite the reports to the contrary that the illness of the Pope was merely transitory indisposition, from which he has entirely recovered.

A Madrid paper announces that "The Commander-in-Chief of the American Army is one Ted O. Shafter, formerly a New York policeman," who was "born near Harlem," "emigrated to America when young" and was educated at "Harvard Academy commercial school" "there being 'no universities or colleges in America'" and that his "bodyguard is fittingly termed rough riders."

The Rev. W. B. Costley, of Stockbridge, Ga., while attending to his pastoral duties at Ellenwood, that state, was attacked by cholera morbus. He says: "By chance I happened to get hold of a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, and I think it was the means of saving my life. It relieved me at once." For sale by J. ## GEN. SHAFTER!

His Glorious Achievement in the Porto Rico Campaign.

**FACTS SILENCE FALSEHOOD.**

A correspondent of The New York Sun uttered certain reflections that must in the midst of the petty jealousy of the hour and the hysterical ebullition of ambitious and disappointed soldier politicians have occurred to nearly 75,000,000 people. The communication to The Sun is as follows:

"To the Editor of The Sun—Sir: The disposition in some quarters to disparage and belittle Gen. Shafter is most unfortunate. With an army of 15,000 he sailed 1,100 miles, landed on a rocky and hostile coast, plunged through a semi-tropical jungle, and in ten days captured the impenetrable and hills commanding Santiago, so that Cervera's fleet was forced out and destroyed. Ten days later he captured not only Santiago and its garrison and communications of war, but also some 34,000 Spanish troops and practically all of Eastern Cuba.

"Could the wildest optimist have looked forward to so sweeping a victory? Do we not all owe Gen. Shafter a debt of gratitude?"

—Francis J. Stroz.

The clamor of the warring politicians will die after a while, and the people will give full credit to the soldier under whom the army of Santiago accomplished such magnificent results.

## RUGGLES CAMPMEETING.

The Ledger's Correspondent Notes the Happenings of the Last Days.

Special Correspondence: Public Ledger.

RUGGLES CAMPMEETING, August 12th, 1893.

Editor Ledger: The Epworth League meeting of today was one of special interest, and this young people's service is now one of the leading features of the campmeeting. This meeting was led by Miss Birnie Walsh and the speaker was Prof. Crabbe, our choir leader, and as this was the first time that the Professor had delivered an address, it drew a goodly number, and every person—Preacher and all—was carried away with this address, so practical and so convincing was it.

The address was in the interest of the Mercy and Help Department of the League. Mrs. George Harding and Mrs. Joseph Dodson also delivered short addresses, and the meeting was a most profitable one. Indeed, of course, this just put the Professor in demand and his services were again secured to lead the Epworth League services at 3 o'clock on Saturday. This meant an increased number in the attendance of both Preachers and young people. We had all along supposed that the Professor's talents lay only in his fine voice and his knowledge of music, but this day proved that he can preach the Gospel with great power and effect.

Why, Bro. Jones and Bro. Wallingford just shouted out their ballistics and the spirit was taken up all through the congregation, and we heard one lady remark when he had finished that she was well paid for all her expense and trouble in coming to campmeeting; and I only

beard the sweet strains of the Gospel songs wafted in the air from the voices of these young workers for Christ, and we fell to sleep praising God.

The Presiding Elder says we have listened to some 3,000 prayers in 100 services, 80 sermons, and during the meeting some three or four have been converted; and with the exception of the few rainy days the meeting throughout has been a success, delightful to all the campers and attendants.

**THE BEST REMEDY FOR FLU.**

Mr. John Mathias, a well known stock dealer of Pulaski, Ky., says: "After suffering for over a week with flu, and my physician having failed to relieve me, I was advised to try Chamberlain's Colic, Cholera and Diarrhoea Remedy, and have the pleasure of stating that the half of one bottle cured me." voice the sentiments of all those who are the most interested and who work hard to sustain the campmeeting in every way that I say that this association will miss it badly if they fail to secure this man's services just as long and as often as they can. For not only is he a sweet singer, an able leader, but he is one of the most hearty Christian workers and when he takes hold things have got to go.

This morning (Sunday) opened bright and beautiful and very soon the people came pouring in. The service at 9 o'clock a. m., experience meeting, was conducted by Bro. I. M. Lane and proved to be a Gospel feast. At 10:30 Rev. J. W. Barnes preached to a magnificent congregation who listened to him with the deepest interest. At 3 o'clock Epworth League service and Dr. Bowman and Rev. Barnes were the speakers on literary work. At 7:30 Rev. Barnes preached again on general Christian work and closed with an earnest exhortation to the people to depart from sin and serve God. At the close we listened again to one of Prof. Crabbe's men's quartets. Then after regular old fashioned Methodist shake hands the campmeeting at Ruggles closed with the Benediction. Then the young people took up the serenading of the cottages and kept it up until late, but none too long, for this is a delight to the tentholders while they are lying in bed thinking of the many happy meetings now drawing to a close. They

I can obtain some wonderful cures of its medical qualities."
